Aflac Dental Insurance

Before your dentist sends your next appointment-reminder card, apply for a plan that may help pay for the visit!

After all, you are going to the dentist for routine and preventive care, so why not have a dental plan that pays directly toward those periodic checkups and cleanings—in a fast and painless way. These wellness visits—which are necessary to have good oral health and to help reduce the likelihood of expensive treatment later on—saved Americans billions of dollars in dental costs over the past decade. In fact, a thorough examination, including X-rays, is all it usually takes to diagnose a problem.

FLASH a great smile ... dental insurance is now available at home or where you work!

If you've been going to the dentist regularly (or need an incentive to begin), Aflac's plan offers the finest in easy-to-understand, choice-based coverage. Here's what we mean:

You know what you're getting.

The plan spells out the benefits for both wellness and other diagnostic/treatment services. There are no gray areas. Each covered procedure has a specific benefit amount with a specific waiting period.

There's no deductible.

Our benefits are not reduced by a plan deductible.

You choose your dentist.

Virtually all managed-care plans require you to use only dentists in their approved network. Aflac gives you total freedom to choose your own dentist without restriction.

We pay benefits regardless of any other plan.

Aflac pays full policy benefits, period! It doesn't matter if you have other dental or medical coverage that may overlap. Plus, Aflac has a long history of prompt claims payment.

Aflac's Dental Wellness Benefit doesn't count toward your plan maximum.

Routine visits don't impact your total benefits by one penny.

You own the plan.

Even if you apply at work and then change jobs or retire, you can still keep the same benefits and premium rate you had as an employee.

Your ability to renew is guaranteed.

You can't be removed from the plan for any reason except failure to pay the premium.

Your policy has rate stability.

Since our policy is schedule-based (pays a set benefit for each service or procedure), it is less sensitive to general price increases. In other words, an increase in dental charges will not automatically trigger a rise in rates.

No precertification is required.

You and your dentist decide what treatment is best for you. If it's on the schedule, you don't need anyone's permission.

Plus, these optional riders are also available through payroll deduction only:

- Orthodontic
- Cosmetic

Guaranteed-Renewable for Your Lifetime

This policy is guaranteed-renewable for your lifetime, subject to Aflac’s right to change premium rates for all policies of this class.

Effective Date

The effective date of the policy will be the date shown in the Policy Schedule, not the date the application is signed. This policy is available through age 65 on payroll deduction and age 64 on direct.

Family Coverage

Family coverage includes the insured; the insured’s spouse; and dependent, unmarried children to age 19 (age 23 if full-time students). One-parent family coverage includes the insured and dependent, unmarried children to age 19 (age 23 if full-time students). Newborn children are automatically covered from the moment of birth. A dependent child must be under the age of 19 at the time of application to be eligible for coverage.

Exceptions, Reductions, and Limitations of This Policy

This policy does not cover losses caused by or resulting from any procedure not shown on the Schedule of Dental Procedures; services that are not recommended by a dentist or that are not required for the preservation or restoration of oral health; repairs to dental work within six months of the initial work; replacement prosthetics within five years of last placement; treatment involving crowns for a given tooth within five years of last placement, regardless of the type of crown; replacement for inlays or onlays for a given tooth within five years of last placement; treatment received while outside the territorial limits of the United States or, if outside the United States, the territorial limits of the place where your policy was issued.

Benefits for sealants are limited to secondary molars for dependent children under age 16 and will not be payable more often than every five years. No benefits will be paid for replacement of teeth missing before the effective date of coverage. Benefits are not payable for procedures performed by a member of your immediate family.

Waiting Period – This is the period after the effective date of coverage for which benefits are not payable for each covered person. If a dependent is added by endorsement, the waiting period will begin from the effective date of the addition. In the event of reinstatement, all covered persons will be subject to new waiting periods beginning with the effective date of reinstatement.
