## Combine Your Plan With a Health Savings Account (HSA) and Save Money Tax-Free

You can combine the affordability and simplicity of the high deductible health plan with the tax advantages and financial control of an HSA. Pay for out-of-pocket qualified medical expenses incurred under your high deductible health plan, including expenses that apply toward your deductible using an HSA. You can use an HSA to save up to the amount of your health plan's deductible, or \$2,700 for self only coverage or \$5,450 for family coverage.

Contributions to an HSA are tax deductible in most states, similar to an Individual Retirement Account (IRA). Deduct your contributions from your federal income tax return. Any earnings on the balance in your account accumulate tax-deferred. Withdrawals on savings, including earned interest, are tax-free if used for qualified medical expenses. Plus, your savings carry over every year and any interest incurred continues to accumulate tax-deferred.

### Qualified Medical Expenses

Use your HSA to pay for covered medical expenses, including those that apply toward your health plan's annual deductible. You can also use your HSA to pay for qualified medical expenses that your health plan doesn't cover, such as:

- Diabetic supplies
- Hearing aids
- Orthodontia, dental cleanings and fillings
- Physical therapy, chiropractic expenses
- Eye exams, eyeglasses, contact lenses
- Laser eye surgery
- Over-the-counter medicines, prescription drugs
- Speech therapy

*For a complete list of qualified medical services, consult IRS publication 502: "Medical and Dental Expenses" on the Internal Revenue Service Website at [www.irs.gov](http://www.irs.gov). Individuals are responsible for compliance of HSA spending regulations.*

### Greater Savings for Self-Employed Individuals

If you are self-employed, you may be eligible to deduct your health plan premiums from your federal income tax return. This means you can save even more of your hard-earned money.
